Case Number 1NMC640

Mendocino County

Notice Posting Date: May 27, 2021

End of Comment Period: July 26, 2021

During an underground storage tank removal at the above-referenced site in February 2019, gasoline contamination was detected in the excavation water. The Regional Water Board issued Cleanup and Abatement Order R1-2019-0014 requiring certain cleanup and investigation activities.

Excavation water was pumped out, and a soil and groundwater investigation was conducted. No additional contamination was detected, and the groundwater downgradient of the underground storage tank location was found to be uncontaminated. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's "[Low-Threat Underground Storage Tank Case Closure Policy](#)."

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the closure process upon conclusion of the comment period. Please contact Craig Hunt at (707) 576-2469 or Craig.Hunt@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:
